## The Fastest-Growing Tech Firm in Energy City USA is Also an Energy Technology Company

11.19.08, 11:30 AM ET

HOUSTON, Nov. 19 /PRNewswire/ -- The business community honored Houston's fastest-growing technology firms at the FastTech 50 luncheon presented by the Houston Business Journal.

GlobaLogix outpaced its competition with 1,343% year-over-year sales growth. The firm placed first among all entrants and was one of only four energy-related technology firms on the Houston FastTech 50 list.

Over 450 community and business leaders cheered on the 2008 FastTech 50 award recipients at the luncheon when the rankings were first made public. Companies making the list were ranked by percentage of revenue growth over the past two years.

"Managing quadruple-digit growth has been a rewarding and exciting challenge," said James Hamilton, CEO and co-founder of GlobaLogix. "From four employees and first revenue in mid-2005 to over 60 employees and \$8 million in revenue for 2008 has been a whirlwind ride for our team."

Top executives of some of the honored businesses shared their insights on what to do and what not to do to succeed in today's competitive technology industry. These insights can be found in the FastTech 50 section -- available exclusively in the Houston Business Journal's November 7, 2008, issue.

Accounting firm PKF Texas presented the FastTech 50 awards along with event host the Houston Business Journal. Co-sponsors were Capital One Bank, Griffin Partners: 1301 Fannin, Oracle, Phillips & Reiter PLLC, Pierpont Communications, the Houston Technology Center, the Rice Alliance for Technology and Entrepreneurship and Fox 26 News.
